

Technical data / data sheet

## VTT PP clip hoods

### HIGHLIGHTS

- Antibacterial
- Lint-free

### Material

	Polypropylene fleece hood
Weight	18g/m <sup>2</sup>

### Features

	The hood consists of one part and is mechanically folded (zigzag folding).
	In each case for the lower cut edges (long sides) a rubber band is attached.
	Elastic band: natural rubber, coated with textured polypropylene thread (Elastodin)
	Antibacterial, physiologically and dermatologically safe, with needlestick channels, therefore also lint-free.
	The materials used have no allergic skin reactions, according to manufacturer certificates.

### Application area

	Simple care and hygiene areas
--	-------------------------------

### Delivery form

	1000 pcs/box
--	--------------
